15,000,000 PEOPLE FACING STARVATION

And Appeal Is Made for Aid for Stricken Cnes

WHOSE LANDS ARE INUNDATED

Coditions in North Kiangsu, China, are Appalling—Crops are Practically a Total Failure, and Food Supply is Almost Exhausted.

Washington, Dec. 20.—Official advices received here from the prefect of Husinfau regarding the famine in North Kiangsu, China, confirm the stories of suffering and want among the people of that section. The crops are reported as being almost a total failure in Taoyuen and it is stated that by the new year this meagre supply will be exhausted.

The conditions in Antong and Funing are still worse, the crops being practically a total failure. The country everywhere is under water and for a distance of 50 miles the people were compelled to wade through the water from knee deep to waist deep and in some places to their necks.

The prefect states that in the part of country immediately west of Tsingho, what formerly was a fertile plain covered with good crops and prosperous hamlets, is now a vast lake, extending 20 miles at the narrowest point and stretching for over 40 miles toward the southwest. An urgent appeal is made to the people of all foreign lands for aid for the stricken people, whom state department advices already have placed at fifteen million.

Facing Fines of $3,100,000.

Toledo, O., Dec. 20.—The largest list of indictments ever returned in the federal court here was returned when the United States grand jury made its report to Judge Taylor. The indictments around which most of the interest centered were those against the Ann Arbor Railway and the Toledo Ice and Coal company. The Toledo Ice and Coal company was indicted on 155 counts for receiving rebates on ice shipments. The Ann Arbor railway was indicted on a like number for granting rebates. The maximum penalty is $20,000 fine on each count. If convicted on all the counts, the fines would amount to $3,100,000 in both cases. Six indictments were returned against the Great Lakes Dock and Dredging company for violations of the federal eight-hour law.

Dramatic Hearing at Mobile.

Mobile, Ala., Dec. 20.—A special from Montgomery says that a dramatic incident occurred during the hearing of a petition of habeas corpus in the city court. The petitioner, Mrs. P. J. Railey, of Macon, Ga., had filed petition for her release from prison where she had been held upon instructions of her husband. The pathetic feature of the case was the appearance of the daughter, a pretty child of eight years, the custody of which Mr. Railey petitioned the court to give to him. A compromise by the counsel of the parties settled the matter amicably, giving the child to its father in consideration of the husband rescinding his charges against the woman.

Mrs. Sage Loans $1,500,000.

New York, Dec. 20.—Mrs. Russell Sage loaned $1,500,000 to the Lands Purchase company on a piece of property on the south side of Wall street, just west of William street. The mortgage on the property is at 4½ per cent, due Feb. 1, 1910. This makes nearly $7,000,000 that Mrs. Sage loaned on Manhattan real estate recently.

Monsignor Adami Dead.

Rome, Dec. 20.—The death was announced Tuesday of Monsignor Adami, one of the most wealthy Roman prelates. During his life time Monsignor Adami made valuable presents to Pope Leo III and Pius X, his gift to the latter being a gold pectoral cross set with brilliants and by his will he left $1,000,000 to the pope.

COURT'S INVESTIGATION OF JAIL

Treatment of Greene and Gaynor at Macon, Ga.

Macon, Ga., Dec. 20.—There is an impression among officials who have to do with the keeping of Greene and Gaynor that the department of justice in Washington has been fully satisfied as to the treatment these prisoners are receiving in the county jail here. The threat of moving them followed the erroneous news accounts faked from Macon, and since they have been denied there will probably be no further serious concern. There may be still efforts on the part of higher officials to learn the true state of facts, but if this occurs, Macon officers will be pleased with the opportunity to establish the real facts.

The effort to meet the assertions with refutation has been well nigh successful, and both officials and prisoners are satisfied with the results. Marshal George White has been very much upset by the hurried orders and communications coming closely behind the newspaper statements, and has busied himself with seeing that every matter in connection with the treatment of the prisoners is proper and regular.

Captain Greene and Colonel Gaynor are pleased with the statements that they have conducted themselves in courteous and polite manner toward the officials. They have apparently been contented with their lots as prisoners, and the agitation has meant no material change with them. They occupy cells, have access to the jail yards and occasionally get something sent in in the way of refreshments, but a deputy is always on guard and Jailer Hubbard generally knows what is going on at all hours. The two men will spend their holidays behind the bars of the county jail as other prisoners.

Morgan Differs with President.

Washington, Dec. 20.—In giving notice in the senate that at an early date he would call up his bill to control the direction and management of the Panama railroad, Senator Morgan remarked that as he read the President's Panama message, grave doubt was expressed as to the proposed location of the Gatun dam. The president, he said had made an earnest demand on congress at the last session to secure the passage of the bill for a lock canal, and that bill had passed. "It is too late to save his reputation as an engineering officer," added Mr. Morgan, "but it may not be too late to save this government from enormous loss."

Negro Asks for a Recount.

Chicago, Dec. 20.—Assistant State Attorney Ferdinand L. Barnett, who was the only republican candidate defeated in the recent election of municipal court judges, filed a petition with the clerk of the county court in which he asks a recount of the votes. The petition recites that Barnett, who is a negro, was duly elected to the office, but he was fraudulently counted out by the election judges.

Five Men Shot by Kentuckian.

Charleston, W. Va., Dec. 20.—In a row near the postoffice of Blue Creek last night, George Goodwin, a Kentuckian, shot five men, one fatally. William Armstrong, whose lungs were perforated, will die. After a race with the sheriff, who shot at Goodwin six times, Goodwin was captured and brought to jail here. The fight was the result of a trivial dispute between two of the men.

Fire Follows Train Wreck.

Houston, Tex., Dec. 20.—A head-on collision occurred at Thornton, Tex., between a passenger train that left here on the Texas Central and a freight train on the Santa Fe. Both engines were demolished and fire destroyed three freight cars and four coaches. The engineer, fireman and three mail clerks on the passenger train were injured. The passenger train ran into an open switch.

Pistol Bullet to End Trouble.

Albany, Ga., Dec. 20.—T. J. Thornton, merchant and farmer, at Morgan, Calhoun county, committed suicide by shooting himself in the head with a pistol. Despondency over financial affairs is said to have been the causes.

STRAUS' FIRST RULING FAVORABLE TO SOUTH

He Decides That States May Induce Immigration.

SOUTH CAROLINA CASE DECIDED

No Violation of Alien Contract Labor Law When State Encourages Immigration and Pays Transit Expenses of the Immigrants.

Washington, Dec. 20.—The first decision rendered by Secretary Straus, of the department of labor and commerce, was in the interest of the south, and upholds the right of a state to induce immigration.

This decision settles the legality of the Georgia immigration scheme.

The decision holds in brief, that, in the circumstances there is no violation of the immigration laws or of the law to prohibit the importation of alien contract laborers in the action of the state of South Carolina, in this particular case, in encouraging immigration to the state or in paying the extra expenses of the immigrants in coming to the state.

A similar ruling will beyond doubt be made on the plans proposed by the Georgia immigration society.

It is pointed out that there is a very essential difference in law between an immigration agent acting under state authority and receiving only supplemental subscriptions from private parties, and an agent employed directly by private parties or corporations, and whose commission from the governor is simply incidental. This is the point on which the Georgia case turns.

The case of North Carolina, now being investigated by Solicitor Earle, grows out of the employment by certain cotton mill interests of an immigration agent to represent them primarily. This case will be pressed. As stated, above, however, the department finds there is no ground for proceeding against Commissioner Wilson or any one connected with the importation of the Witteknid immigrants.

Indian Agency Cashier Suspended.

Muskogee, I. T., Dec. 20.—Lyman K. Lane, cashier of the Indian agency, has been suspended, following the investigation which Tuesday revealed a shortage of between $6,000 and $7,000. It is charged that money received during the present administration has been used to supply deficiency, which, it is alleged, existed during a previous administration. The matter had been placed in the hands of the district attorney.

Will Fight Steel Trust.

Chicago, Dec. 20.—The Tribune says that a bitter war which ultimately may have far-reaching effects on the manufacturing interests of the country was precipitated Tuesday when a number of farming machinery companies openly declared their intention to fight against the "trust" prices and methods of the iron and steel combine of the United States.

Madame Gould Victorious.

Paris, Dec. 20.—Madame Gould, the former Countess Boni de Castellane, has been victorious in the suits brought by creditors and money lenders against her with the object of making her jointly responsible with the count. Thirteen of the fifteen cases were dismissed by the court with costs against the plaintiffs.

Death Reveals Truth.

Phoenix, Ariz., Dec. 20.—M. Dereyian, who came here two months ago from Chicago, with Dr. Rowe, died Tuesday night of consumption. Dereyian claimed to be a son of a Russian admiral and to have a wife and son in Chicago. At the undertaking parlors it was discovered that the deceased was a woman.

Texas Siftings' Editor Dead.

New York, Dec. 20.—John A. Knox, one time editor and proprietor of the Texas Siftings, died suddenly Tuesday in his home. The cause of death was heart disease. He was born in Armorite, Ireland, in 1850.

SOLDIERS FIRE AT TRAIN.

Twenty Men of Ft. Barrancas Garrison Accused.

Pensacola, Fla., Dec. 20.—Charges have been preferred by a conductor of a train from Pensacola to Ft. Barrancas alleging that soldiers at that post fired on his car from ambush at 10 o'clock Tuesday night.

Officers of the post are investigating the trouble. The conductor avers that on leaving Pensacola for the fort, a distance of 10 miles, he had trouble with an artilleryman about this fare. When he attempted to eject the soldier from the car, his comrades rushed to his assistance, and one of them threatened the conductor with a club.

The street car man drew a revolver and stood off the soldiers, however. The artilleryman who caused the trouble was placed under arrest by the civil authorities.

On reaching Barrancas, the soldiers, about 20 in number, alighted. The car stops ten minutes at the fort before beginning the return trip. The conductor avers that withi na short distance from the post on the return, a volley was fired at him. He was on the rear platform, and alighted, returning the fire with his revolver. He says his assailants, who he recognized as soldiers, then fled.

VICTIM'S WIDOW ON STAND.

Mrs. Parker Tells How Her Husband Was Killed.

Sylvania, Ga., Dec. 20.—Sylvester Sasser was put on trial in the superior court for the murder of Fayette Parker, a prominent farmer, some months ago.

Mrs. M. L. Parker, widow of the murdered man, was on the stand most of the day. She said her husband had returned home at 12:30 o'clock at night. As he was about to retire she asked him to extinguish the light, which stood on a table by an open window. He was shot through the window as he approached the window.

Sasser had been employed on the Parker place, but Parker had driven him away.

Hoof prints leading to and from the house were identified the morning after the muhder as having been made by Sassesr's horse, a son of Parker testifying to this effect.

Mrs. Parker became tearful when asked on the stand if she had been at Indian Spring, Ga., with Sasser a short while before Parker was killed. She indignantly denied this.

Jeweler Found Badly Wounded.

Atlanta, Dec. 20.—On entering a jewelry store at No. 6 Central avenue Tuesday night at 12 o'clock, Patrolman Gib Davis found the owner, W. M. McNeill, prostrate on the floor with a shot wound in his abdomen. Mr. McNeill, for some nights past, has been spending the night in his store, watching for burglars. On Monday night he caught one in the act. It is thought someone must have come to avenge the arrest of the negro thief. No one seems to know of anyone bearing enmity towards the man. He was taken to the Grady hospital at once. His injuries are not of a very serious nature. The assailant is unknown, for the wounded man would not talk.

Motor Boat Race Arranged.

New York, Dec. 20.—The proposed motor-boat race from Miami, Fla., to Nassau, N. P., is practically arranged. Sir William Gray-Wilson, governor of the Bahamas, has taken a keen interest in the race. The United States arrangements are in the hands of Major John Sewell, of Miami, and a citizens' committee. The proposed course, which is 160 statute miles, leads from Miami across the Bahama banks. The date of the race has been set for Feb. 1, and the navy department has promised that a suitable vessel will be available for duty as escort to the tiny fleet.

Young Man Adjudged Insane.

Macon, Ga., Dec. 20.—Biron James, a young cotton mill operative, was adjudged insane by a jury, and he will be sent to the state sanitarium at once. He was taken into custody by the police on a charge in which insanity seemed apparent, and the verdict is the result. He was an employee at the Willingham mills.

FIFTEEN YEARS IS GIVEN TO TURNAGE

Convicted of Attempted Criminal Assault.

STATEMENT MADE BY VICTIM

In Passing Sentence Judge Roan Declared that But for Recommendation of Jury He Would Have Given the Limit of the Law.

Atlanta, Dec. 20.—"But for God coming to my side just at that moment," dramatically declared Mrs. Carrie Comstock, as she rose from the witness chair in the superior court room, and pointing at Robert Turnage, "that man would have dishonored me. But," she continued, "as he passed his hand over my face I seized one of his fingers in my mouth, and clenched my teeth upon it. Then he struck me in the face, broke my nose, and when I finally tried to escape, struck me on the head with a water pitcher, and cursed me as I lay prostrate and helpless."

It took the jury but a short time to determine the fate of Robert Turnage, a young white man but 28 years of age, tried in the superior court under indictment for attempted criminal assault upon Mrs. Carrie Comstock, the wife of a city water meter reader, who in pursuance of her business as a solicitor for a cooking propound, called at the house where Turnage was, in the afternoon of Dec. 7, and, upon being admitted to the house by Turnage to see "the lady of the house," was brutally assaulted by him. Guilty, with a recommendation to mercy, was the verdict of the jury, immediately after the rendition of which Judge Roan said:

"Stand up, Turnage. Have you anything to say why sentence of the law should not now be pronounced upon you?" asked Judge Roan.

"Only this, judge," said the prisoner, without the flicker of a nerve as he stood shoulder to shoulder by the side of his white-haired father, who trembled when he heard the verdict. "That I made a truthful statement on the stand."

"In deference to the jury," said Judge Roan, "I will sentence you to serve 15 years at hard labor in the penitentiary. The maximum punishment I might inflict would be 20 years, which is what, but for the recommendation of the jury, I would have imposed upon you. Yours is one of the most brutal crimes I have known of, and but for the interposition of Providence, this good woman, who has a kind, motherly, Christian face, would have been your victim. I cannot strongly enough characterize your cowardly and brutal attack upon this good woman."

Physically, Turnage bears none of the ear-marks of a degenerate. He has a clear skin, is well-formed, and is apparently above the average man as regards intelligence. His defense was that he was mentally irresponsible at the time of the assault, and this plea, put forth by his attorneys, Madison Bell and Mark Bolding, was thoroughly ridiculed by Solicitor General Charles D. Hill, who represented the state.

"Think of it!" cried Mr. Hill. "If one ear is larger than the other, if your palate is high, and you love oysters and have short fingers, the case is made out. You are crazy! That's all that needed, according to the remarkable statement made by the defendant's witness, Dr. S. H. Roberts."

J. W. Turnage, his head whitened by the passage of many years, the father of the plumber on trial, testified that his son had always been of a roving disposition, slept in the woodshed at home, and did other unconventional things. Besides, the father declared, the son inherited the taste for drink from his grandfather.

Madge Turnage, the sister of the defendant, declared that her brother was quarrelsome without reason, and without cause, had threatened her and her brother. Policeman S. L. Rosser testified that Turnage was drunk on the day he arrested him after the alleged assault.

A WELCOME RAIN.

The Second in Three Months Was Welcomed With Gratitude by Farmers.

The second rain which has fallen in this section for the past three months or more visited this section Thursday. While it is true that there was a little sprinkle on the night previous, it was only an indication, and accomplished little or no good.

A fairly good rain followed Thursday morning, and the ground was thoroughly saturated. This rain continued throughout the day until the late afternoon, and the expressions of the farmers visiting the city showed that they were satisfied.

The rain was badly needed, and the planters throughout this section welcomed it with the greatest gratitude. The various crops have been greatly benefited.

FROM A CITIZEN OF POLK.

Does Not Endorse C.-I.'s Article Relative to Awards of Grand Prize.

Editor Gainesville Sun: It is with mingled feeling of surprise and disgust that we notice The Courier-Informant assailing The Gainesville Sun for giving expression to its feeling of dissatisfaction concerning the division of prize-awards at the State Fair, between Alachua and Polk counties.

Many Polk Co. people deplore deeply the necessity of a controversy upon this matter; nor have they any desire to conflict with their fellow-citizens of Alachua, and if The C.-I. purports that the effusion of indignation so liberally poured upon The Sun is an expression of all the people of Polk, we would assure you that this is not concomitant with the fact.

The general public of Polk is not yet so thoroughly permeated with the spirit of individual greatness that it cannot see anything good in its fellowman, nor so egotistic as to set themselves up as an educational model for others to behold and applaud.

After an appropriation of $150,000 to meet the commissioner's expenses the people had a right to expect some results. The judges being cognizant of this fact, and no doubt remembering the acrimonious criticism poured out upon them by the same "C.-I." a year ago, because Marion and not Polk received first prize, thought (right or wrong) best to give Polk a slice of the glory to avoid a repetition of clannish narrowness.

It is well known to many of Polk county's noble hearted people that there is a factional and very selfish clan, surrounded by a number of its political satelites, who deem themselves superlatively endowed, and at every opportunity they flaunt their assumed superior education (?) and spirit of progressiveism (?) into the face of an indulgent public, having little regard for the Golden Rule of magnanimity, tolerance, and humane culture.

What The C.-I. says in its editorial is not the product of mature thought but an explosion of petulent sentimentalism, unworthy of serious consideration, especially as it reflects upon the moral and educational standing of the people of Alachua county.

This paper is not the mouthpiece of the sovereign people of Polk, but the organ of a few socio-politico demagogues who claim they own this county, the State, and all that therein is, and will not tolerate any successful rival in the high attainment of mortal perfection. POLK COUNTY CITIZEN.

Conductor Carter Again.

John Carter, a clever fellow who was a truck farmer when he decided to enter the railroad business, became a conductor and afterwards decided that he was a better trucker than conductor, found out his mistake, as John is railroading again, having accepted his old position as a conductor on the Gainesville and Gulf.

But John is a pretty good fellow in anything you take him. He is a good trucker, because he pays attention to his business. He is a good conductor for the same reason. He decided to retire from the trucking business, however, and no sooner had he made his decision than the Gainesville and Gulf heard of it and picked him up before he had an opportunity even to look around.

Captain Carter's friends are glad to see him back again, and hope some day, when the Gainesville and Gulf is completed to Tampa, that he will be conductor of the best train in Florida

Child Died Clasping Doll.

New York, Dec. 20.—Clasping her Christmas doll in her arms five-year-old Florence Fisk died at Bellevue hospital Tuesday night. The child had been promised a doll and her mother went out to make the purchase. During the latter's absence Florence played with matches and set fire to the house. Her mother found her fatally burned at the hospital, where, in her single moment of consciousness, she asked: "Did Santz bring my doll?"

EARTHQUAKES.

Their Causes, Their Frequency and Their Two Great Belts.

There is never a day on which some part of the earth is not shaken, and it is probable that not even an hour ever passes without some kind of an earthquake in some part of the earth. The truth of this statement may be inferred from the fact that in Japan alone 8,331 earthquakes were recorded between the years 1885 and 1892. The great majority of these shocks are tremors detected only by instruments or, if noticed by man, of such slight intensity as to cause no alarm. Many, however, are sufficiently strong to endanger life and property, and there is every gradation between the tremors which only delicate instruments detect and the earthquake which devastates a great city.

Causes for jars in the earth are many and of different kinds. The falling in of the roofs of caverns has been known to cause earthquakes, and landslides have caused others. These, however, are minor causes, and the resulting shocks are of slight importance. A far more potent cause for earthquakes is volcanic action.

There are two great belts on the earth in which either volcanoes are active or mountains are growing or in which the two phenomena are associated. These two belts follow great circles. One of these passes through the West Indies, the Mediterranean sea, the Caucasus and Himalaya mountains and is called by De Montessus the Mediterranean or Alpine-Caucasus-Himalayan belt. In this belt 53 per cent of all recorded earthquakes have occurred. The second belt nearly encircles the Pacific, following the Andes, the mountains of western North America, the Aleutian islands, Japan and the Philippines. This De Montessus calls the circum-Pacific or Andes-Japanese-Malayan belt. In this belt have occurred 41 per cent of all recorded earthquakes. In all the rest of the world the recorded earthquakes equal only 6 per cent of the total number.

Those whose homes are outside the two belts of frequent earthquakes are not absolutely immune from disturbance, as is proved by the earthquake at Charleston in 1886 and at New Madrid in 1812. But in those parts of the globe earthquakes are not common. They occur in widely scattered localities at rare intervals and are not commonly of great destructiveness. In the belts of frequent earthquakes, on the other hand, shocks may occur in many places at frequent intervals and occasionally with great violence. San Francisco and Santiago, for example, are situated on danger lines in the earth's crust, as are many other places in the two great earthquake belts.—Professor Ralph S. Tarr in Leslie's Weekly.

The Successful Ad. Writer.

Advertising requires versatility of a high order. To win success in this field a man must not only be able to combine human interest with the strictest accuracy of fact, but unless he is a specialist in a certain line, taking up advertising commissions at intervals, he must be ready to cope with subjects of the most diverse character. Today he studies the methods of making cigars and the many different kinds of tobacco that enter therein; tomorrow he writes a monograph on enameled tin cans, investigating the processes of making them in the factory, and the day after that his topic may be breakfast foods, taking him into investigations of starch, gluten, digestive functions, diet and health and setting him upon a weary hunt for synonyms to describe the "rich nutty flavor" that all breakfast foods are said to have. All the illustrative work of an advertising artist must be so true to detail that it will pass the eyes of men who spend their lives making the things he pictures. It was the manufacturer of a widely advertised specialty who, difficult to please in circulars, looked over the manuscript submitted by an advertising free lance with more approval than was his custom. "This is not bad," he commented; "not bad at all—and yet—I have seen all these words used before."—J. H. Collins in Atlantic.

Christmas Shopping Tragedy.

New York, Dec. 20.—A Christmas shopping tragedy developed in a police court here when Mrs. Kate Smith was arraigned for stealing toys in a department store. The woman told a tearful story, which moved judge and spectators. She said her husband had given her $10 to buy toys for their four children, all he could afford. When she reached the shopping district, she was dismayed to find that her pocket had been picked and the money stolen. Rather than disappoint the children of Christmas joys she decided to turn thief. Her story was investigated, found to be true and Mrs. Smith was discharged, the department store officials voluntarily withdrawing the charge after the judge and a number of persons in court had offered to pay for the stolen goods.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

The affidavit alleges that January was held in involuntary servitude together with his wife and six children by a man named Carter for about two years. Carter then sold him to Patrick for a sum of $1,090.71, alleging a debt of that amount. Patrick refused to release him. January alleges that he was whipped by Carter with a buggy trace until he was bloody from head to heels.

Sunday Closing Law.

New Orleans, Dec. 19.—A sensational incident in the efforts of police Inspector Whitaker to enforce the Sunday closing law occurred when the young men's gymnastic club, of which he is a member, demanded his resignation and offered to return his dues. The club acted because Mr. Whitaker had caused the arrest of the club's bartender on a charge of violating the Sunday law. The club's directors announced that they demanded Whitaker's resignation under the section of their by-laws referring to members "detrimental to the prosperity and welfare of the club."

Rome, Ga., Dec. 19.—Luther Walraven, a young farmer, about 19 years of age, drowned in the Etowah river, a few miles from Rome. Searching parties were out all day and part of the night but had not recovered Walraven's body. The deceased was a young son of Joseph Walraven, a well known and wealthy farmer.

The usual talk of a Southern man as the Democratic candidate for President is again being indulged in by many newspapers. The Sun would like to see a Southern man President, but we fear it will not be in this editor's time. Bryan will be the next Democratic nominee, and if the railroads do not improve the service they are now rendering as public carriers the great commoner's suggestion of Government ownership of railroads will strengthen rather than weaken his candidacy.

Secretary Straus of the Department of Commerce and Labor has decided that it is not unlawful for a State to encourage foreign immigration, or to pay the expenses of immigrants in coming to the State. This decision will greatly relieve the labor situation in the South, for the immigration bureaus can now send agents to Europe, select the desired class of laborers, and pay their expenses to this country, if such be necessary, as such action is not a violation of the alien contract labor or immigration laws.

A strong effort is being made by some few Republican Congressmen to induce President Roosevelt to call a special session of Congress soon after March 4th, to consider the revision of the tariff. The powerful protected trusts and the great majority of Republican Congressmen are insisting that it would imperil prosperity to revise the tariff now, and be politically disastrous to do so just prior to a national election. The standpatters will do and say anything for procrastination, and if successful at the next national election they will declare it is a mandate not to meddle with the sacred tariff, but to let well enough alone.

The following from The Times-Union will meet with the unqualified indorsement of every person who believes in punishing those hellish brutes, be they white or black, who assault women: "The Atlanta jury that recommended to the mercy of the court a man it had convicted of assaulting a woman, surely does not represent the sentiment of the State. It is strange that a white man convicted of this crime should be recommended to mercy in a city where so recently negroes were attacked so indiscriminately because some negro had been guilty of it. Mob law is always wrong, but a mob that would attend to the men who served on this jury would be as little objectionable as any we can think of. If they had found the accused not guilty the case would have been different. If he was guilty, as the jury decided, the recommendation to mercy was a disgrace to every man who concurred in it."

THE POPS AND THE PRESIDENT.

The Populist party of Kansas will disband, but before the leaders agree to disband they will hold a conference and Chairman Hanna declares they will advise their followers to join the Republican party, as "President Roosevelt is doing the things now that we advocated ten years ago when we were laughed at." "We are all for Roosevelt," declares this enthusiastic Roosevelt convert, "and we are going to get into his party." It has been rather dry picking for the Populist leaders in Kansas since the Republicans came back into power and they evidently want a chance at the post-offices, or "something equally as good" As the rank and file of the old Populist party are readers of the newspapers, they should refer to the President's late message and read, mark, learn and inwardly digest what he says there about "the impracticable or sinister visionaries," evidently meaning the Populists, and a little further along where the President recommends Congress to allow the railroads to combine. Is that what Populists have been striving for? Can any Populist, or for that matter anyone else, point to any act of the President or Congress in the past ten years that has resulted in reducing freight rates or lowering the high prices the tariff protected trusts are charging?

A SILENT CHRISTMAS.

It is not generally known that Christmas at one time was regarded as a superstitious festival, and put down in England by the strong hand of the law. The holly and mistletoe bough were ordered to be destroyed, root and branch, as "plants of the Evil One." It was Oliver Cromwell who ordered that throughout the principal towns in the country Christmas should not be observed, "it being a hurtful custom." In order to make people forget Christmas, he enacted that all markets should be held on the 25th of December. It was hardly to be excepted that the people would quietly submit to so extraordinary a rule, nor did they. During the illness of Henry VIII, in the first year of his reign, it was decided that the Christmas should be a silent one. There were no bells, corals or merry-making.

Judge J. B. Wall of the Sixth Judicial Circuit has decided as unconstitutional the Act of 1899, which provides in substance, that a party desirous of engaging in the sale of liquor should file an affidavit with the county commissioners from three persons setting forth that the applicant is 21 years old, sober and law abiding. Judge Wall's decision is based upon the ground that the Act gives the county commissioners judicial powers. The decision will stand in the sixth circuit until reversed by the supreme court, and all applicants for permits to sell liquors in that circuit will have to secure a petition signed by a majority of the registered voters of the election district in which the application is made. This may be considered a victory for the temperance people, which it undoubtedly is in election districts where the better element predominates, but in those districts controlled by the "riff-raff" the decision will be hailed with delight by those who will again be enabld to "sponge" on the saloon man when he is seeking signatures to his petition for license.

Under a decision of the United States Court of Appeals at New Orleans, affirming a former decision of Judge Speer of Georgia prohibiting the railroads from increasing the rate on lumber to points north of the Ohio river, the railroads will be compelled to refund to the sawmill men of Georgia and Florida an approximate sum amounting to one million dollars.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

An Ordinance Providing for the Issuance of Bonds Under the Provisions of an Act of the Legislature of the State of Florida, Entitled: "An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of Those Powers."

Be It Ordained by the Mayor and City Council of the City of Gainesville, Florida:

Section 1—The Mayor and the City Council of the City of Gainesville, in their corporate capacity, under the authority of an Act of the Legislature of the State of Florida, entitled: "An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of those Powers," approved on the 9th day of May, A. D. 1905, hereby provide by ordinance for the issuance of bonds of said city, as hereinafter provided, to be known as "Municipal Bonds of the City of Gainesville," to the amount of TEN THOUSAND ($10,000) DOLLARS. The principal and interest of said bonds shall be payable in gold coin of the United States of the present standard of weight and fineness, and for the payment thereof, principal and interest, the entire taxable property of said city and the public utilities acquired and owned by said city shall stand pledged by this ordinance. Each of said bonds shall be of the following denominations, viz: Five hundred dollars. Said bonds shall be dated the 1st day of February, A. D. 1907, and each of said bonds shall bear interest at the rate of five per cent per annum, payable semi-annually, at the end of periods of six months from the date of the bond. The principal of said bonds shall become due on the following date, viz: On or before February 1st, 1917. Said bonds and the interest thereon shall be payable at the office of the City Treasurer of the City of Gainesville. The proceeds arising from the sale of said bonds, at not less than par value, and the purpose for which the issue of bonds proposed to be issued by this ordinance shall be used, is the following, viz: the money arising from the sale of said bonds, or so much thereof as may be necessary, shall be used to purchase and acquire the following described lot or parcel of land situated in said City of Gainesville, and more particularly described as follows, towit: All of Block 5, Range 8, according to the original survey of said city; provided, however, that none of said bonds shall be issued until after the issuance thereof, under the provisions of this ordinance, shall have been approved by a majority of the votes cast by the qualified electors of said city, at a special election which shall be held for that purpose on the 15th day of January, 1907, in accordance with this ordinance.

Sec. 2—The Mayor and City Council shall levy and collect annually such special tax on the taxable property within the corporate limits of said city as may be necessary to pay the interest on said bonds, and to provide a sinking fund for the payment of said bonds.

Sec. 3—Said bonds shall be printed or engraved with interest coupon attached, payable as by this ordinance provided. Said bonds shall be signed by the Mayor, countersigned by the President of the City Council, and attested by the City Clerk, and shall bear the corporate seal of said city, and the interest coupons shall bear an engraved or printed fac-simile of the signature of the City Treasurer. When said bonds shall have been so signed and sealed they shall be turned over to the Board of Public Works, who shall be trustee for said bonds, and shall be by said Board offered for sale to the highest and best bidder for cash, on sealed bids, but said Board shall have and reserve the right to reject any and all bids, and shall not sell any of said bonds for less than par value. The proceeds for the sale of said bonds, as soon as received by said Board, shall be turned over to and deposited with the City Treasurer of said city. Said money shall be paid out by said Treasurer on the order of the City Council of said city, for the purpose for which said bonds are authorized by this ordinance to be issued.

Sec. 4—Said bonds shall be payable to bearer and shall be delivered by said Board of Public Works only after being countersigned by the Chairman and Secretary of said Board, whereupon said bonds shall become payable to the lawful bearer thereof. It shall be the duty of the Board of Public Works, as bond trustees, when any bond is sold or issued by them, to register the same in a book to be kept for that purpose and said Board shall keep an accurate account of all bonds and coupons outstanding and of all such as may be paid.

Sec. 5—It shall be the duty of the Board of Public Works on or before the first day of July, of each and every year, to report to the City Council the number of said bonds outstanding, with an estimate of the amount necessary to be raised for interest and sinking fund, which statement and estimate shall serve as a basis of assessment by the City Council for the ensuing year for that purpose.

Sec. 6—The Mayor of the City of Gainesville is hereby directed to issue his proclamation calling a special election to be held in said city on the 15th day of January, 1907, to determine whether the issuance of bonds proposed by this ordinance to be issued shall be approved by a majority of the votes cast by the qualified electors of said city at said special election, and said proclamation and this ordinance shall be published in a newspaper printed in said city at least once each week for four consecutive weeks, the beginning of such publication being made immediately upon the adoption and approval of this ordinance. At said special election the question of the issuance of bonds to the amount of ten thousand dollars, and for the purpose proposed in and by this ordinance, shall be submitted to the qualified electors of said city for their approval, that each qualified electors hall have an opportunity to vote for or against the question of the issuance of said bonds for the purpose proposed, and each elector shall cast a paper ballot. Each elector desiring to vote for or against the approval of the the issue of bonds for ten thousand dollars for the purpose mentioned in this ordinance may vote a paper ballot containing the words: "For municipal bonds ten thousand dollars," or "Against municipal bonds ten thousand dollars," and each of said ballots shall be counted as a ballot approving or disapproving, as the case may be, the issuance of the bonds for the purpose mentioned in this ordinance. The said special election shall be called, held, conducted and the returns thereof canvassed, in all other respects, as nearly as may be practicable in compliance with the rules, regulations and ordinances governing and controlling the general city elections of said city.

Sec. 7—The City Council shall prepare and furnish all necessary blanks and ballots, and shall make all necessary preparation for said special election, and shall pay for the same out of the proper fund in the City Treasury. The ballots to be used in said election shall be substantially in the following form:

Livingston Works for Georgia's District Agricultural Colleges.

Washington, Dec. 20.—Colonel Livingston has introduced a bill providing that the government should contribute to the support of Georgia's district agricultural schools. The bill carries appropriations of $1,000 annually for each school for this purpose.

The bill providing for the maintenance of agricultural schools is made general in its application, and as technically worded provides "that there is hereby appropriated annually out of any money in the treasury, not otherwise appropriated, to be paid to each state and territory for each college that is or may hereafter be established in congressional districts, the sum of $10,000 annually. Such sum shall be aplied to the maintenance of such agricultural schools as directed by the state, under the authority of law as prescribed by the states."

Colonel Livingston's bill proposes to further the work had in view by Governor Terrell in his visit to the secretary of agriculture. It is planned that only one school in each congressional district should be the beneficiary of such appropriation.

CHILD'S AWFUL SKIN HUMOR

Screamed with Pain—Suffering Nearly Broke Parent's Heart—Twelve Years of Misery—Doctor Called Case Incurable—Helped from First, and

SPEEDILY CURED BY CUTICURA REMEDIES

"I wish to inform you that your wonderful Cuticura has put a stop to twelve years of misery I passed with

my son. As an infant I noticed on his body a red spot and treated same with different remedies for about five years, but when the spot began to get larger I put him under the care of doctors. Under their treatment the disease spread to four different parts of his body. The longer the doctors treated him the worse it grew. During the day it would get rough and form like scales At night it would be cracked, inflamed, and badly swollen, with terrible burning and itching. When I think of his suffering, it nearly breaks my heart. His screams could be heard down stairs. The suffering of my son made me full of misery. I had no ambition to work, to eat, nor could I sleep.

"One doctor told me that my son's eczema was incurable and gave it up for a bad job. One evening I saw an article in the paper about the wonderful Cuticura and decided to give it a trial.

"I tell you that Cuticura Ointment is worth its weight in gold; and when I had used the first box of Ointment there was a great improvement, and by the time I had used the second set of Cuticura Soap, Ointment, and Resolvent my child was cured. He is now twelve years old, and his skin is as fine and smooth as silk. (signed) Michael Steinman, 7 Sumner Avenue, Brooklyn, N. Y., April 16, 1905."

Complete External and Internal Treatment for every Humor, from Pimples to Scrofula, from Infancy to Age, consisting of Cuticura Soap, 25c., Ointment, 50c., Resolvent, 50c. (in form of Chocolate Coated Pills, 25c. per vial of 60), may be had of all druggists. A single set often cures. Potter Drug & Chem. Corp., Sole Props., Boston.

Shah's Condition Unchanged.

Teheran, Dec. 20.—The shah had another slight attack of syncope during the night, but soon recovered. There has been no material change in his general condition since Tuesday.

The Origin of Mr. and Mrs.

In earlier times the ordinary man was simply William or John—that is to say, he had only a Christian name without any kind of "handle" before it or surname after it. Some means of distinguishing one John or William from another John or William became necessary. Nicknames derived from a man's trade or his dwelling place or from some personal peculiarity were tacked on to his Christian name, and plain John became John Smith. As yet there were no "misters" in the land. Some John Smith accumulated more wealth than the bulk of his fellows—became perhaps a landed proprietor or an employer of hired labor. Then he began to be called in the Norman-French of the day the "maistre" of this place or that, of these workmen or of those. In the time the "maistre," or "maister," as it soon became, got tacked on before his name, and he became Maister Smith and his wife was Maistress Smith. Gradually the sense of possession was lost sight of, and the title was conferred upon any kind—by mere possession of wealth or holding some position of more or less consideration and importance.

How Icebergs Are Born.

The birth of a huge iceberg, a phenomenon that has been seen only once or twice by a European and to a certain extent has remained a matter of theory, was observed by the Danish explorers on the east coast of Greenland some time since. The bergs are formed by breaking off from the end of glaciers extending from the perpetual ice of the unexplored interior to the coast and into the sea. The water buoys up the sea end of the glacier until it breaks by its own weight with a terrific crash. The commotion of the water as the iceberg turns over and over in the effort to attain its balance is felt to a great distance along the coast. The natives regard it as the work of evil spirits and believe that to look upon the glacier in its throes is death.

Makes the Liver Lively.

Orino Laxative Fruit Syrup gives permanent relief in cases of habitual constipation as it stimulates the liver, and restores the natural action of the bowels without irritating these organs like pills or ordinary cathartics. Does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

ANCIENT LITERATURE.

How Some of It Was Luckily Saved From Destruction.

Considering that the whole of ancient literature was confined to manuscript, it is wonderful that so much of it has come down to us. The preservation of some old writings has been almost miraculous. To a single copy preserved in a monastery of Westphalia, for instance, do we owe all that we have of Tacitus. This is the more remarkable since the emperor of that name had copies of the works of his distinguished ancestor placed in all the imperial libraries and caused ten copies of them to be transcribed yearly. Still, only the one copy has been found in modern times.

A page of the second decade of Livy, we are told, was discovered by a man of letters on a battledoor while he was amusing himself in the country. He rushed up to town, but he was too late, for the battledoor maker "had used up all his parchment the week before." Two manuscripts of Cicero on "Glory" were presented to Petrarch, who lent them to an old preceptor. This latter gentleman, being pressed by want, pawned them and died without revealing the name of the pawnbroker. Two centuries afterward they were mentioned in a catalogue of books bequeathed to a convent, but could not be found. It is supposed that Petrus Aleyonius, the physician to the institution, appropriated them and, having transposed some of the thoughts to his own writings, destroyed the originals.

The original Magna Charta of England has certain mutilations, presumably from a pair of shears. It is said that Sir Richard Cotton, calling one day at his tailor's, discovered that that man was holding in his hand ready to cut up for a pattern a copy of the great Magna Charta, with all its appendages and seals.

Children's

Favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surmac, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed 73 worms. For sale by W. M. Johnson.

High Priced Copy.

During the siege of Kimberley the editor of the only daily paper there was often hard put to find enough news. One day in a clubroom he found Cecil Rhodes reading a fairly new paper from Cape Town. He borrowed it and rushed to his own office, where it soon reappeared as a special edition, selling like hot cakes. That same evening he met Rhodes, who inquired, "Where's my Cape Town paper?" "Oh, I cut it up for the printers," was the reply. "Please don't do that again," said Rhodes mildly. "That paper came through my native runners and cost me $1,000."
